Joinery Overview

Bespoke joinery

As a specialist in the design and manufacture of high quality, stylish bespoke woodworking solutions, SAV joinery produces functional and beautifully crafted designs across a range of uses, applications and sectors.

Our team of skilled craftsmen are experienced in working with all types of wood - solid wood, real wood, veneer, laminate, and to incorporate glass, metalwork, or solid-surfacing. Furthermore, we operate a strict process of traceability to ensure that we only purchase timber from sustainable forests by sourcing material from registered Environmentally-friendly sources.

Whatever the project nature or size, we will work from existing designs or through working closely with customers, to produce new designs utilising our established in-house CAD designers and facilities. Solutions may include timber reception desks, bars, counters, cabinets, storage units, POS and retail display shelving and furniture. We can also match existing designs and mouldings so that renovation or refurbishment projects are handled sympathetically. Our bespoke woodworking design and manufacturing service is backed up by experienced project management and on-site installation teams.
