Metalwork Overview

High quality metalworking

Whether standard or bespoke products, for various applications, Savekers Limited, is positioned to provide unrivalled products and solutions across a diverse range of architectural metalwork materials and finishes.

Alongside our specialist CAD technical design team, is our comprehensive 45,000 square foot production facility, which spans water jet cutting, CNC machining, NC bending, welding, polishing, general fabrication, anodising and chrome plating.

Our ever-growing portfolio of architectural metalwork products, recognised as one of the most comprehensive in the UK, extends to wall mounted and free standing shelving systems, a range recently

enhanced with the acquisition of the Cantel Range of Retail Systems.

Other items include safety barriers, balustrades, display counters, cabinets, bar fittings, door furniture, protection screens, sliding glass track, bathroom products, security locks and our disability range of balustrades and handrails, designed with the help of the Disability Access Charter, assists businesses in compliance with the Disability Discrimination Act (DDA).

Items are manufactured in a selection of materials including brass, mild steel, stainless steel and aluminium. Satin and polished finishes are available, along with a wide range of powder coated finishes.
