Our total solution

We manufacture a standard range of products recognised as one of the most extensive in the UK using cutting edge manufacturing equipment and skills including a team of technical designers who utilise the latest generation of CAD facilities. We have experienced craftsmen working with wood and metal to create tailored display systems and solutions that make a difference to your business and overall retail experience.

Rapic Modular System

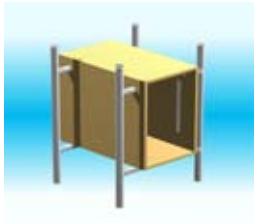

products

Rapic Modular System

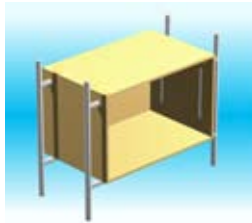

Interchangeable counters & accessories

The Rapic Range of counters and accessories delivers a simple to assemble range of mix-and-match items that can be tailored to individual retail applications and requirements. The range is created from a basic suite of units to provide storage and display for every application.

The units can be joined together to create a variety of formats, from basic counters to a fully built tailored island, that take the concept of bespoke individual designs to a new level. Each unit can be complemented by adding various accessories – from the stylish side legs to glass tops and internal shelves.

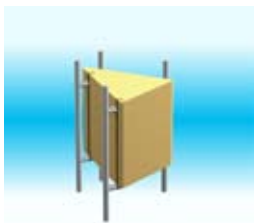

H1030 RAPIC Single Base Unit. Standard unit has solid back and sides with open front. Overall height of unit is 600mm x 350mm wide x 600mm deep. Includes internal pre fitted shelf strip. Available in maple, oak or cherry effect. Other finishes available on request.

H1031 RAPIC Double Counter Unit. Standard unit has solid back and sides with open front. Overall height is 600mm x 950mm wide x 600mm deep. Includes pre fitted shelf strip. Available in maple, oak or cherry effect. Other finishes available on request.

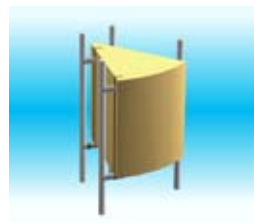

H1032 RAPIC Single Tall Unit . Standard unit has solid back and sides with open front. Overall height is 1650mm x 350mm wide x 600mm deep. Includes pre fitted shelf strip Available in maple, oak or cherry effect. Other finishes available on request.

H1033 RAPIC 45° Corner Unit. Standard unit has solid back and sides with closed front. Overall height is 600mm x 492mm maximum width x 600mm deep. Available in maple, oak or cherry effect. Other finishes available on request.

H1034 RAPIC 90° Corner Unit. Standard unit has solid back and sides with open front. Overall height is 600mm x 874mm maximum width x 600mm deep. Available in maple, oak or cherry effect. Other finishes available on request.

H1035 RAPIC 45° Curved Unit. Standard unit has solid back and sides with closed front. Overall height is 600mm x 492mm maximum width x 600mm deep. Available in maple, oak or cherry effect. Other finishes available on request.

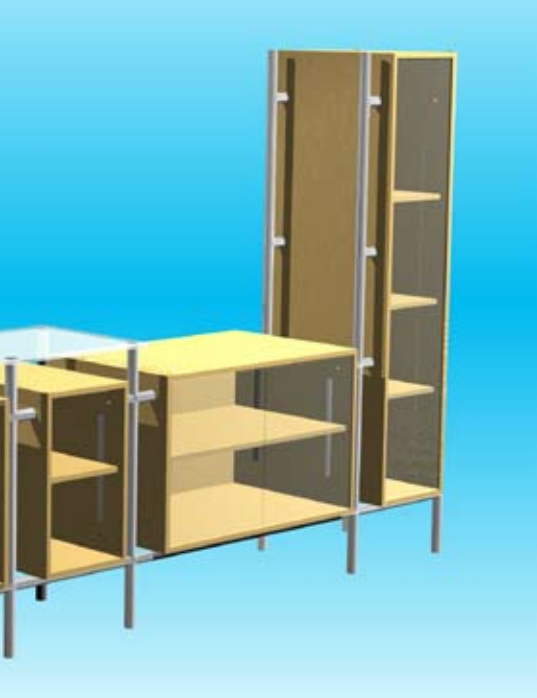

Example configuration: double base, 90° corner

Raptic can be specified in a range of finishes to suit retail surroundings, and can be modified to include individual branding, signage and to complement merchandising and POS/POP schemes as required.

All counter and cabinet units can be supplied either flat pack – for simple assembly on-site – or partly assembled, requiring the fixing of legs on site. Individual items within the Raptic range can be added to and 'bolted-on' at any stage after the initial installation as required.

H1040 Pair of side legs for basic counter units. Legs can be specified as ends and centres. Main upright is from 38mm dia tube with 32mm dia crossrails and mounts for easy assembly. Legs include a domed top cap which can pass through up to 50mm glass or timber work surfaces. Legs include a domed top cap which can pass through up to 50mm glass or timber work surfaces. Satin chrome plated as standard with other finishes available on request.

Savekers Limited
 101 Aldridge Road, Perry Barr,
 Birmingham, B42 2TS,
 United Kingdom

BESPOKE DESIGN & MANUFACTURING AVAILABLE

Savekers Limited

Company Overview

Boasting over 100 years experience as a high quality end-to-end manufacturer and designer of product display and commercial enterprise solutions. Savekers competencies span technical product design, metalwork and joinery manufacturing, standard and bespoke solutions in metalwork and joinery, whether for contract cutting and/or electro plating, standard or bespoke products for a range of disciplines and market sectors.

With manufacturing facilities housed at our 60,000 square foot Birmingham-based head office, Savekers delivers total manufacturing in metalwork and joinery, whether for standard or bespoke products and solutions.

Alongside our specialist CAD technical design team, our production facility includes laser tube profile cutting, flat bed laser, water jet cutting, CNC machining, NC bending, welding, finishing, general fabrication, anodising and chrome plating.

Our dedicated joinery workshop manufactures flat pack, part and fully assembled crafted wooden furniture, including counters, reception desks, storage and display units, shelving, furniture and POS. Our team is experienced in working with solid wood, real wood veneer and laminate, with designs incorporating metalwork, glass or solid-surfacing. Our strict policy of traceability ensures we only purchase timber from sustainable forests and from registered environmentally-friendly sources.

Prototypes form part of our manufacturing process for bespoke design projects. Our skilled workforce can not only create new designs but can also modify existing products to achieve required solutions, whether for single units or high volume manufacture.

For more information or to discuss your requirements, please contact our Sales Team or take a look at our website to view our full product range or download product brochures and technical literature.
