Heaven

A match made in Heaven

Savekers worked with Deborah Mitchell, the creator and founder of the 'Heaven' beauty and skincare product range and brand, to create a high quality, bespoke stylish and quality suite of furniture for the Heaven flagship concession at London's centre of holistic and natural treatments, the Nutri Centre.

From a 'limited brief' the Savekers team designed, produced and installed a stylish, contemporary and functional suite of timber furniture at the Nutri Centre. Our team of experienced shopfitters installed all of the items at the Heaven concession, including several glass-fronted wall and floor mounted units, glass top units, counter, sample station and consultation table.

Savekers continues to work with Deborah Mitchell and Heaven to provide bespoke production of individual items as and when they are required at new concessions and franchises across the UK.
