Barriers for Selfridges

In-store performers including acrobats, contortionists, dancers and live bands were amongst the first to benefit from security barriers supplied to Selfridges 147,000 square foot store at the Trafford Centre in Manchester.

The G911 Retractable Barriers are amongst Savekers flagship and pioneering range of freestanding Barriers and Pedestrian Guidance Systems that extends to more than thirty different standard designs.

Each of those supplied to Selfridges Trafford was chrome plated and incorporated a black strap with a 2-metre extension and stand 935mm high with a weighted base.
