## Solutions for café bars & eateries

Serveries, Display cabinets & Relaxed seating areas

Hectic lifestyles today have created a high demand for smart café bars, eateries, snack bars, sandwich shops and concessions that deliver the quality product we want at the speed we need it, but all within a stylish environment.

Functional, durable and stylish interiors for these applications, to include serveries, display cabinets, relaxed seating areas and facilities, are all equally important, and at Savekers, our in-house CAD technical design and extensive metalwork and joinery production facilities, appreciate the importance of combining good looks with durability – this is just one of the reasons why Savekers is one of the UK's market leaders in designing and supplying a range of standard and bespoke items to this specialist sector.

From wooden, glass or metal counters, display cabinets and serveries, through to coordinating furniture, fittings and seating, balustrades and a range of handrails that complies with the Disability Discrimination Act (DDA), we can provide a combination of wood, metalwork and glass integrated design solutions, manufactured to the highest quality control measures. Whether the requirement is for a total refurbishment or renovation, which individual items that are either completely bespoke or incorporate items from our standard product range, our teams will deliver the most relevant products and solutions, created in the best materials for the job.

### Standard products
