Solutions for Charity Shops

Simple, hard-working and flexible retail interiors

Simple, hard-working and flexible retail interiors lie at the heart of the UK's network of charity retail outlets that provide a valuable route to fundraising. As an experienced manufacturer and supplier to both the independent and multi-outlet retailer across the UK, Savekers has an extensive standard product range to deliver a flexible shopfitting solution.

From hanging rails for garments, through to shelving, cabinets and counters, Savekers has undertaken the design, production and installation of both standard and unique items for use in numerous retail environments. Our product range and expertise in this sector includes:

- Standard range of retail display fittings and shelving made from oval or round tube in various sizes, with the flexibility to create an infinite variety of structures from the suite of standard component parts.
- The Cantel range of retail systems is a suite of innovative, stylish interchangeable shopfitting and display systems comprising three ranges each available in a selection of standard materials and to include a comprehensive suite of compatible accessories.
- Counter and cabinet fittings, including shelf strips, feet and legs, locks, hinges, connectors and ventilators, through to balustrades and handrails.
- Solutions for all interior fittings installations spanning project management, electrical system design, cost management, facilities maintenance and IT solutions.
- A Disability Range, designed with the help of the Disability Access Charter, which meets the needs of the disabled and assists compliance with the DDA.

Our customers include

- Acorns Childrens Hospice
- Princess Alice
- The Perfume Shop (S & E Specialists Limited)
- The Meyer Group
- Hot Diamonds
- Heaven Health & Beauty
- Ethina Indian Couture.
