## Solutions for Department Stores

A comprehensive end-to-end service

The design and manufacturing teams at Savekers understand the challenges of making POS and product display systems hardworking and stylish within a retail environment, where space is often at a premium. This is backed by our turn-key installations and shopfitting resource, so customers enjoy a comprehensive end-to-end service.

### Standard range

- Recognised throughout the industry as one of the most comprehensive available.
- Retail display fittings are made from oval or round tube in various sizes.
- All systems are flexible to create an infinite variety of structures from the extensive suite of standard component parts.
- A selection of wardrobe rails and hangers is ideal for clothing display, alongside freestanding and wall mounted hanging rails.
- Includes the Cantel range of retail systems; a suite of innovative, stylish interchangeable shopfitting and display systems comprising three ranges – Ikon, Focus and Vogue. Accessories are compatible across each of the three ranges, and are completely interchangeable.

### POS for homeware

- In a department store, effective POS demands a clever use of available space to display and store, as much product as possible so that limited space is maximized, without any compromise on style.
- By combining Savekers design and manufacturing skills, customers work with us to ensure the creation of a durable unit that works well in a department store retail environment and carries sufficient product and company branding to catch the eye of potential purchasers.
- Bespoke cabinets and counters for the display of smaller items such as jewellery or perfume – from glass counters and sliding doors, through to unique designs and shapes created from wood such as oak or maple. Items can be designed as a one-off or as multiple units for a consistent 'look' throughout all retail applications.

### Our customers include

- The Perfume Shop (Shopfittings & Equipment)
- The Meyer Group
- Hot Diamonds
- Ethina Indian Couture
