## Solutions for Exhibitions & Promotions

Eye catching, well-constructed & functional stands

Exhibiting at trade fairs and consumer shows represents a major investment in all respects, so it is vital that the stand not only looks exceptional to catch the eye of visitors to the show, but that it is well-constructed and is functional for the activities to be showcased and undertaken at such events.

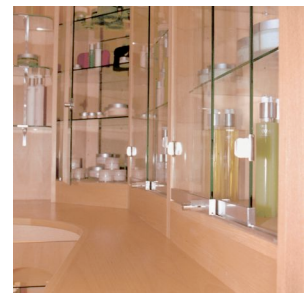

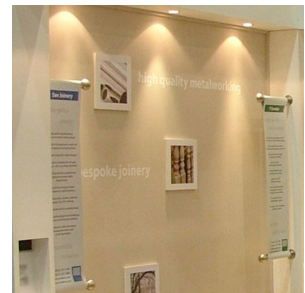

Through its provision of high quality manufacture, an appreciation of the rigors and strategies of exhibitions and promotional events, and our design abilities, Savekers is ideally placed to provide a solution for this unique environment.

We will work with our clients to understand their aims for exhibitions, to create a stand design that fulfills the practical needs as well as communicates the business themes for the event, through a relevant and stylish design. Customers can draw on our technical design expertise, supported by our bespoke metalwork manufacture, joinery production, together with specialist lighting and accessory fulfillment. This is supported by our experienced on site installation and fitting resource. The overall look is completed with stylish signage and furniture.

### Our customers include

- Heaven Health & Beauty

Stunning stand at on of the UK's top health and beauty industry events, Savekers designed, manufactured and built the stand for Heaven Health & Beauty. This project was as a direct result of the overall solution Savekers delivered to Heaven for its flagship concession at The Nutri Centre in London. Savekers designed, produced and installed a contemporary and functional suite of timber furniture, including glass-fronted wall and floor mounted units, sample station and consultation table.
