Solutions for Health & Beauty

Interiors that create style and quality

Clientele of health and beauty salons, concessions and retail dispensaries expect stylish interiors. Equally, these outlets present a unique opportunity to reinforce brands and corporate image. This is why Savekers has established a reputation of excellence both for our understanding of this unique environment, but also for our ability to create practical and stylish designs. Our unique combination of specialist metalwork and joinery design, production and installation, delivers the complete solution with a mixture of materials and finishes.

- Freestanding and fixed stools, upholstered to coordinate with all interiors.
- Table bases, table columns and stools, manufactured to a standard specification from our extensive range, or to customers requirements.
- Items available with adjustable and fixed height feet and legs.
- Sliding track and glass doors, for use with display cabinets and counters.
- Diverse and extensive range of materials - brass, mild steel, stainless steel and aluminium - and finishes including satin, polished and powder coating.
- Bespoke cabinets and counters to display beauty or hair care products.
- Designed and manufactured to harness Savekers extensive resource – from glass counters and sliding doors, to unique designs created from wood.
- Items designed as a one-off or multiple units following a unique design for a consistent 'look' throughout all applications.
- Furniture such as consulting tables, seating and shelving.

Heaven

Heaven Health & Beauty Flagship concession at The Nutri Centre in London and a prime example of the overall solution available from Savekers, which designed, produced and installed a contemporary and functional suite of timber furniture, including glass-fronted wall and floor mounted units, sample station and consultation table.
