Solutions for single site retailer outlets

Convenience stores, Newsagents & Garage forecourts

Retailers operating within the independent retail sector, to include convenience stores, newsagents and garage forecourts, can expect the ultimate standards, levels of functionality and durability from Savekers. As a specialist in the design and manufacture of high quality retail solutions, working with interior designers and the retailers, Savekers has completed the design, production and installation of standard and unique items for many independent retailers. All design, production and finishing is undertaken at our head office, providing unrivalled schedule control from material selection to delivery.

- Standard range of retail display fittings and shelving, made from oval or round tube in various sizes, to create an infinite variety of structures from standard component parts.
- Bespoke items include counters and cabinets, designed and produced by our specialist woodworking company - the CAD design and CNC machine teams work with all types of wood from real and veneer, to laminated or panel wood, with glass or metalwork incorporated as required.
- Cantel range of retail systems is a suite of innovative, stylish interchangeable shopfitting and display systems comprising three ranges – Ikon, Focus and Vogue – each available in a number of standard materials: oak, maple and cherry-effect wood, and silver/dark granite powder coating, with other finishes available to complement interior design schemes.
- A wide range of counter and cabinet fittings, including shelf strips, feet and legs, locks, hinges, connectors and ventilators, used in applications such as display cabinets and cupboards, supplied with or without locks for added security. A selection of alternative shelving systems offers adjustable shelf heights and widths in a range of finishes and designs providing high levels of flexibility for displaying a range of goods.
- Turn key solutions for all fittings installations.
- To assist compliance with the Disability Discrimination Act, our Disability Range, meets the needs of the disabled and all current legislation. The non-slip grip on all products is available in three colours that provide a contrast against background colours for those with visual disabilities.
