## Solutions for Retailers

Working with interior designers and the retailer

A specialist in the design and manufacture of high quality retail solutions, working with interior designers and the retailer, The Savekers Group has completed the design, production and installation of standard and unique items for many high street operations and individual boutiques. All design, production and finishing is undertaken at our head office providing unrivalled schedule control from material selection, to prototypes and delivery.

- Standard range of retail display fittings and shelving, made from oval or round tube in various sizes, to create an infinite variety of structures from standard component parts. A selection of wardrobe rails and hangers available, alongside freestanding and wall mounted hanging rails.
- Bespoke items include counters and cabinets, CAD design and CNC machine teams ensure designs are created, manufactured and assembled to a high quality. All items can be manufactured from real, veneer, laminated or panel wood, with glass or metalwork incorporated as required.
- Cantel range of retail systems is a suite of innovative, stylish interchangeable shopfitting and display systems comprising three ranges – Ikon, Focus and Vogue – each available in a number of standard materials: oak, maple and cherry-effect wood, and silver/dark granite powder coating, with other finishes available to complement interior design schemes.
- A wide range of counter and cabinet fittings, including shelf strips, feet and legs, locks, hinges, connectors and ventilators, used in applications such as display cabinets, showcases and cupboards. Bespoke design and manufacturing available to match unique requirements.
- A range of metalwork items for balustrades and handrails supplied on a 'mix and match' basis to create an original design from standard components. All manufactured in polished brass, steel or stainless steel, with chrome, satin chrome and powder coated finishes.
- Turn key solutions for all fittings installations spanning project management, electrical system design, cost management, facilities maintenance and IT solutions.
- To assist compliance with the Disability Discrimination Act, Savekers Disability Range, meets the needs of the disabled and all current legislation.
