Savekers Ltd

Our Solutions

With an enviable pedigree and heritage, together with more than 100 years as an established specialist in quality manufacturing, Savekers Ltd offers a level of production and service unrivalled in our field.

Building on the strengths and resource of the founding company, T Saveker Ltd, and through acquisitions and product diversification, we aim to provide an ever-evolving level of customer support through exceptional customer service and skilled bespoke and standard product manufacture.

All aspects of the Company and the skills within, join to collectively meet customer requirements across a range of disciplines and market sectors. These include shopfittings, POS, internet & IT solutions, metalwork, joinery, commercial & business support.

Metalwork Manufacture

Whether the requirement is for standard or bespoke products, for various applications, we are positioned to provide unrivalled products and solutions across a diverse range of architectural metalwork materials and finishes.

Alongside our specialist CAD technical design team, is our comprehensive 45,000 square foot production facility, which spans water jet cutting, CNC machining, NC bending, welding, polishing, general fabrication, anodising and chrome plating.

Our ever-growing portfolio of architectural metalwork products, recognised as one of the most comprehensive in the UK, provides solutions for local authorities, the retail sector, exhibitions, financial institutions, leisure & entertainment, construction – to name but a few.

Joinery Manufacture

As a specialist in the design and manufacture of high quality, stylish bespoke woodworking solutions, we are able to produce functional and beautifully crafted designs across a range of uses, applications and sectors.

Our team of skilled craftsmen are experienced in working with all types of wood - solid wood, real wood, veneer, laminate, and to incorporate glass, metalwork, or solid-surfacing. Furthermore, we operate a strict process of traceability to ensure that we only purchase timber from sustainable forests by sourcing material from registered environmentally friendly sources. Whatever the project nature or size, we will work from existing designs or through working closely with customers, to produce new designs utilising our established in-house CAD designers and facilities. Solutions may include timber reception desks, bars, counters, cabinets, storage units, POS and retail display shelving and furniture.
